

# IPVC 2023

## COMING TOGETHER FOR HPV ELIMINATION

**MARCH 27-31, 2023 | KYOTO, JAPAN**

IPVC 2023 – The 35<sup>th</sup> International Papillomavirus Conference & Basic Science, Clinical and Public Health Workshops – will once again gather researchers, clinicians and other health professionals to share knowledge and ideas on papillomaviruses and their associated diseases, from basic science to global health impact.

### Conference topics will include:

- Expanding scientific knowledge to benefit the whole community
- Prevention of HPV associated cancers particularly cervical cancer and other PV-associated diseases
- The epidemiology and molecular biology of PVs
- Animal models for the study of papillomavirus disease
- Basic immunology and pathogenesis of PVs
- Therapeutic and prophylactic vaccines
- Changes in screening and vaccination in Japan

Our overarching theme will be translation of research, new discoveries and education into clinical practice and public health to eliminate HPV and related diseases globally.

### Abstract Submission Deadline:

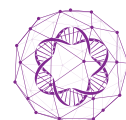

Wednesday, September 7, 2022

### Early Registration Deadline:

Tuesday, January 17, 2023
